

SAY CULLEN IS MENTALLY DERANGED

MECHANIC HELD AT MAYVIEW FOR OBSERVATION.

WILSON OPTIMISTIC

G. O. P. LEADERS ADMIT OHIO IS PIVOTAL.

PITTSBURGH, Pa., Oct. 21.—Richard Cullen, the young Irish-American arrested yesterday afternoon after making three attempts to board the car of President Wilson, today was committed to Mayview for further mental observation. Police investigating developed the fact that the young man has been acting queerly since suffering a sunstroke early in the summer. The contents of the bottle which he carried in a small handbag proved to be medicine which had been given him by his physician. Only rambling answers were given detectives by Cullen, first declaring the president's foreign policy should favor the allies and later declaring the opposite. He made no threats against the president after his arrest, merely saying he wanted to talk matters over with Mr. Wilson.

PRESIDENT CONFIDENT.
Elated Over Reception Accorded on Recent Tour.

SHADOW LAWN. Long Branch, N. J., Oct. 21.—President Wilson regards his Chicago trip as highly successful and is elated over the enthusiastic greetings he received everywhere. He is preparing for a strong finish of his campaign and the wind-up speech probably will be made at Shadow Lawn.

This afternoon the president was scheduled to deliver an address to the farmers of the surrounding counties. He will be in Cincinnati, Ohio, next Thursday, returning to Shadow Lawn on the twenty-eighth. On the thirtieth he will go to New York City and Buffalo. He will speak again at Shadow Lawn two weeks from today.

LAST LAP BEGINS.

G. O. P. Prepares for Fall Drive on Doubtful States.

NEW YORK, Oct. 21.—Plans for the big drive which the republicans and democrats will make up to the very eve of the election were announced today. The fortnight immediately preceding the election will be a strenuous time for both President Wilson and Charles E. Hughes.

Interest in the campaign throughout the country is growing to fever heat, advice received here show. At both democratic and republican national headquarters it was said today that the demand for speakers cannot be met.

While a terrific fight will be waged in Ohio up to the very last minute of the campaign, the other arenas in which the heaviest artillery of both sides will be at work are New York, Pennsylvania, Illinois and Indiana.

At republican national headquarters, the following itinerary for Mr. Hughes was announced today:

October 24—Three speeches in the New York City district. One will be delivered in Queens county, another in Bronx county and the third in the Harlem district of New York City.

October 25 in Brooklyn in the evening; October 26, Hartford, Conn., at noon, Providence in afternoon, Boston at night. October 27, Utica, Auburn, Geneva and Rochester, N. Y.

On October 28, 30, and 31 and November 1, Mr. Hughes will make four speeches but the cities have not yet been decided upon. One of the speeches will be made in New York state, two in Indiana and one in Ohio. It is likely that the candidate will speak in New York on the 28th, in Ohio on the 30th and in Indiana on October 31 and November 1.

On the night of November 3 Mr. Hughes will speak in Brooklyn and on the following night will bring his campaign to a close with a final oratorical effort in Madison Square Garden in this city.

President Wilson will bring his campaign to a close on November 4, when "Thanksgiving" day will be observed at Shadow Lawn.

October 28 will be "New York day" at the summer capital and the president will deliver an address to a large number of New York Democrats who will flock there from all parts of this state.

SPYKER TRIAL, FIRST OF MANY, STARTS MONDAY

Man Accused of Riot Charge Has Only Four Witnesses.

SAXBY CASE IS SECOND

Prosecutor Barr Calls Many to Testify for the State.

Interest in court on Monday centers in the trial of the State of Ohio against Milt Spyker, indicted by the recent grand jury on the charge of attacking an officer for the purpose of lynching. This is the first of trials set down to be heard in connection with the riot, growing out of the capture of Charles Daniels, negro, who on August 30, criminally assaulted Mrs. Vivian Baber, at her home in Shawnee township.

Spyker has summoned but four witnesses to be called in his case. They are Bernie J. Conway and Dan Spees of 508 North Jackson street, William Rathbun of 715 East Findlay street, and T. J. Ward of 952 East High street. James J. Weadock, former prosecuting attorney of Allen county, will defend Spyker. He will also defend George Saxby, whose case is set in court for trial on October 26. Saxby in an indictment, is charged as is Spyker.

Witnesses who have been summoned by the prosecution to testify in the case of Spyker are Sheriff Eley, Chief of Police R. H. McKinney, Patrolmen Morton Dawson and L. E. Parker, Plainclothesman Charles McCoy, Patrolmen Thomas Lawlor, Ward Taylor, R. C. Crissner, Frank Kinner, E. G. Blair and E. M. Wallace, Deputy Sheriff Albert Eley, P. M. Driver, Insurance agent, Harley J. Sipe, Clerk of Courts D. A. Bowsher, Motor Cop Frank Eberle, Plainclothesman Oscar Roush, Captain C. F. Grant, Motor Cop W. M. Thomas, Ben Huber, Roy Bowersock, Henry McCready and Probation Officer Geo. F. Barrett. Prosecuting Attorney Ortho O. Barr and his assistant, Harry J. O'Connor, will look after the state's side of the case.

Henry Kipker and Oscar Hughes, two of those indicted in connection with the riot, were released from jail yesterday by giving bonds in the sum of \$1,500 each. Nine other men, besides Kipker and Hughes, signed each bond.

ARMY OFFICERS LEARNING HOW TO DEFEND THE UNITED STATES.

The best brains of the army are frequently engaged at the army war college in Washington in intricate maneuvers on an exact-scale map where imaginary battalions meet or evade each other on the field of battle. Two men command

each side, playing in turn, while a director measures the ground, estimates time required for movements and referees the fight. A secretary records the various commands and scores the results. Those in the photograph are from left to right:

Lieutenant Colonel D. E. Aultman, Lieutenant Colonel J. A. Shipton, Major L. Wahl, Colonel George H. Cameron, Lieutenant Colonel E. D. Anderson and Lieutenant Colonel Henry Jervey.

LIMA FAMILIES MAY FACE LACK OF COAL DURING COLD WAVE

Shortage of Cars and Labor Cause of Impending Problem.

Continued Cold Weather is Prediction for Next Week.

With the weather prophet predicting continued cold for Saturday, many families in the city face a problem in keeping warm as a result of the near coal famine in the city. Dealers state that they will be unable to fill more than half of the orders within the next week.

Shortage of cars and labor is given as the cause of difficulty in obtaining the carboniferous product. Operators in the coal fields in the southern part of the state claim that in previous years the difficulty in shipping the product was caused by the car service, but this year this difficulty is augmented by difficulty in obtaining labor to mine coal.

Men who usually spend the entire winter in mining coal are this year able to obtain better employment in factories because of busy industrial times. Operators claim that the coal in hands of local dealers for the next couple months will be that

which has been mined in the summer. Local dealers predict an advance in the price of the product in the next two weeks. At the present time the cheapest product is soft coal which is retailing at \$6.50 a ton. Dealers say that this will be increased a dollar on the ton in the next couple weeks.

SKYROCKET WHEAT MAKING FORTUNES

Fabulous Sums Reaped by Speculators in Last Fortnight.

CHICAGO, Oct. 21.—Stories that rival those of fabulous "war bride" profits were winging about LaSalle street today as a result of wheat's sensational skyrocketing during the last fortnight. Wheat has risen 15 cents a bushel in that time, and those who were "in right" have cleaned up fortunes.

Arthur Cutter, a quiet Canadian who was credited a short time ago with making a million in a day, is \$600,000 richer than he was two weeks ago, according to information which comes from the pit. He is said to have taken profits of six cents per bushel on 1,000,000 bushels. Herbert J. Bleum is reported to have made \$120,000 in the past two weeks and still is in good "Just say I made a little money," he laughed when asked about his profits.

Many other traders have cleaned up smaller fortunes in this same fortnight.

DEATH TOLL HEAVY WHEN LAKE STORMS SINK STEAMSHIPS

Detroit Reports Damage of Equinoctual Tempests is Severe.

Velocity of Sixty Miles an Hour Reached by the Gale.

DETROIT, Mich., Oct. 21.—Two ships were sunk and several others narrowly escaped the same fate in the tremendous gale that lashed Lake Erie into a fury yesterday afternoon and last night and six lives were lost while 23 persons are reported to have been rescued from various vessels.

The Marshall F. Butters went down off Southeast Shoals near Cleveland and all the crew are supposed to have been rescued.

The D. L. Filler is reported sunk this morning ten miles off from Bar Point and six men reported drowned.

Survivors brought the story of the sinking of the Butters to Detroit. They said that two steamers, the Billings and a lumber steamer, the Hartwell, had done valiant work in rescuing the crew and that they

SERBS AND BULGARIANS CLASH NEAR MONASTIR, PRIME MINISTER SHOT

Battle in Macedonia May Prove One of War's Bloodiest

ITALIANS ENTER GREECE

Entente Officials to Prosecute Pro-German Sympathizers Involved in Athens Riots.

AUSTRIAN PREMIER SHOT.

LONDON, Oct. 21.—Austrian premier shot.

The World's Almanac names Count Carl Sturghk as premier of Austria, although the above cablegram may refer to Baron von Burian, minister of foreign affairs for the dual monarchy of Austria-Hungary.

Some of the bloodiest fighting of the war marks the great battle between Serbians and Bulgarians in Macedonia, where the Serbs were driving towards Monastir. The Bulgarian war office in an official announcement makes particular reference to the desperate character of the fighting. By capturing Monastir the Serbians will have driven home a wedge from which they can begin the real work of reconquering their lost kingdom. But they are meeting with resistance as stubborn as the savagery of their own attacks.

The chief incident on the western front was a great air battle last night above the Somme battle field in which seven German machines were shot down. Four other German machines were damaged.

On the eastern front and on both sides of Rumania attacks and counter attacks follow without cessation. It is admitted that the Rumanian forces have lost some ground in Dobrudja but in Transylvania their attacks have won them fresh ground. In Galicia and Russia fighting is in progress over a front of 500 miles.

The main development reported from Greece during the past 24 hours was the establishment of an entente officer as inspector of the Greek military police. A despatch from Rome says that the allies have threatened to land more troops unless the Greek government suppresses the disorders. Italian troops are occupying a big area of the Epirus section of Greece.

LONDON, Oct. 21.—British forces pressing on Bapaume along the Albert-Bapaume highway made fresh progress last night in fighting around the Butte de Warlencourt. In announcing this gain the war office stated that there was intermittent shelling by the Germans on the front north of the Ancre.

German trenches south of Neuve Chapelle were raided, the report added.

ITALIANS ENTER GREECE.
Cross Albanian Frontier and Occupy Liaskoviki.

ROME, Oct. 21.—Italian troops have crossed into Greece from Albania, occupying the town of Liaskoviki, it was officially announced here today.

Liaskoviki is in Epirus, 36 miles north of Janina.

The advance of the Italians in the Liaskoviki sector indicates that these forces will join hands with the allies further to the east for a general flanking movement against the Bulgarians south of Lake Presba. The movement also puts the Italians in a position to drive a wedge between the Austro forces in southern Albania and the Germano-Bulgar forces in Macedonia.

An unofficial telegram announces that the Italians are carrying out a movement which will give them the occupation of two-thirds of Epirus.

ENTENTE WILL PUNISH PRO-GERMANS IN ATHENS

LONDON, Oct. 21.—The entente spent big sums to promote the anti-entente riots.

The entente police inspector has already ordered that King Constantine's bodyguard be cut down from 4,000 men to 80. Constantine had surrounded himself with picked troops. All orders of the military police must pass through the hands of the entente inspector and he has authority to dismiss and transfer policemen and gendarmes.

All questions of police policy are to be determined by the entente inspector. Even orders from King Constantine must be signed by the entente inspector before they can be carried out. This officer also has been searched for documentary evidence to show that the propagandist

PARIS, Oct. 21.—Further progress in the Serbian drive towards Monastir was reported by the war office today in a statement on Balkan operations. The Serbs attacked in the sector of Cuke, forcing back the Bulgarians. A British fleet has bombarded positions at Nerhar.

WANT MERCHANT MARINE.

French Hope to Compete With Germany After the War.

PARIS, Oct. 21.—A plea for a great French mercantile fleet to compete with Germany after the war is made in the Journal today by Deputy Bergeon. It will be necessary for France to build many merchant ships, says the deputy, if the commercial future of the nation is to be assured. He pointed out that Germany's mercantile fleet has suffered little whereas many French ships have been sunk.

MANY LOSE LIVES BY CARELESSNESS, RAILROAD STATES

Pennsylvania Circular De-
clares Public Can Re-
duce Casualty List.

Ignoring of 'Safety First'
Principal Basis of Big
Death Toll.

The Pennsylvania railroad author-
ities have issued the following state-
ment, showing that many of the
grade crossing casualties are due to
the fact that the public has not
adopted the slogan of the company,
"Safety First":

In the first eight months of the
present year, 13 people lost their
lives and 104 were injured at grade
crossings on the Pennsylvania rail-
road system, under circumstances
the very nature of which proved to
be a total disregard of caution and in many
cases willful running of risks.

This is shown as the result of a
special inquiry, which has just been
completed, for the purpose of ascer-
taining the extent of recklessness on
the part of the public at highway
crossings over the tracks of the
Pennsylvania railroad.

A large proportion of these acci-
dents occurred to automobilists. The
drivers of 23 motor cars smashed
their machines into the sides of
trains that were actually part way
over the crossings. Four lives were
lost in this way and 51 persons were
injured. Six motorcycles, two bi-
cycles, and four horse-drawn vehicles
were similarly driven into the sides
of trains, causing the deaths of two
persons and injury of 14. One trol-
ley car was run against a train at a
crossing, but fortunately only a single
person was hurt.

Six automobiles crashed into, or
through, safety gates while they
were down and nine people were
hurt. Five motorcycles and two
horse-drawn vehicles did likewise,
causing injury to 10 people.

Eight accidents occurred as a re-
sult of persons attempting to crawl
over trains at crossings. Two peo-
ple, risking their lives in this way,
fell between cars and were killed.
Six others were injured.

One man jumped off an automobile,
while in the middle of a crossing,
stumbled in front of a train and was
killed.

Seventeen people dodged under or
around the safety gates and were
struck by approaching trains. Four

of them were killed and thirteen
injured.

The Pennsylvania railroad is win-
ning out grade crossings as fast as
available resources will permit. Since
1902 the expenditures for this pur-
pose on the lines east of Pittsburgh
alone—comprising less than half the
mileage of the Pennsylvania system—
have exceeded \$40,000,000. Many
grade crossings still remain. To re-
move them at once, or in the near
future, is impossible, as the nec-
essary capital could not be ob-
tained. Before such improvements
can be made by railroad, the money
to pay for them must first be earned.

It is the belief of the management
of the Pennsylvania Railroad system
that accidents at the grade crossings
which have not yet been removed
are wholly avoidable, and that none
would occur at all if everyone, be-
fore going over the tracks, would
first "Stop, Look and Listen."

HOLY LAND MOVIES SHOWN AT CHURCH

Resembling more a church ser-
vice than a moving picture exhibi-
tion, a large company of persons,
interested in church and historical
events, last night sat through the
interpretation of scenes from the
manager to the cross in the life of
Christ. The interpretation was sub-
lime, inspiring and beautiful.

The films were made in the Holy
Land where the events actually hap-
pened. It was one of the biggest
treats Lima people ever enjoyed.
The First Congregational church is
to be congratulated on their fore-
thought in staging these pictures.

my back. They were so severe at
times that I couldn't work. I tired
easily and had no ambition. My
sight was blurred and at times I
was almost blind. The kidney se-

regular in passage. Doan's Kidney
Pills gave me wonderful relief."

Lesson for Oct. 22 in Questions for
Discussion, by Mrs. D. Carl Yoder.
Paul's Defense Before Agrippa.—Acts 26.

This is one of the most eloquent and readable chapters in the Bible and is the second part of last week's lesson. Make clear the situation.

1. V. 1—What was Agrippa? Bernice? Who seems to have been the man of largest caliber, Felix, Festus or Agrippa? Have worldly rules done more to help or hinder Christ's cause?

2. Give an outline of Paul's speech and study it as a masterpiece of literature. Was this address a plea for Paul or a testimony for Christ? Why not a campaign of testimony in these days?

3. Consider well the meaning of the golden text. Are heavenly visions out of date. What was yours? How best teach obedience? What blessings depend upon it?

4. Why is enthusiasm misunderstood in religion today? Which is the most dangerous, enthusiasm or indifference? How can we stir the indifferent?

5. What did Paul want to accomplish by so often referring to his conversion in such detail? What should we tell about our conversion?

6. V. 23—How would Paul's audience have been better off to be like him—chains included?

8. Is the cost and glory of Paul's obedience to the vision of genuine Christianity beyond that of ourselves today? Am I obedient to my vision of Christ?

Sunday School News.

The Sunday school plan as introduced into Japan has stirred up the Buddhists who have inaugurated Buddhist Sunday schools for the purpose of holding their children to the faith in Buddha; 610 new Buddhist Sunday schools have been organized in the last two months. The total number of Buddhist schools is 1400 with an enrollment of 120,000 children. These Buddhist leaders have even appropriated the Christian Sunday school hymns such as, "Jesus Loves Me, This I Know," "Bringing in the Sheaves," "Oh, for a Thousand Tongues to Sing," having composed poems of the Buddhist faith.

The National Education association recently published that there are only two of the Christian nations today that fail to provide for the teaching of religion in the state schools, namely France and the United States; with the withdrawal of religious instruction in the public schools there has followed an appalling increase in crime, particularly juvenile crime.

New Feature to be Added.

Dear Co-workers:

We want to add a new feature to the Sunday School News by having a concise history of an up-to-date school, or an especially fine department of the school or a class that has been making a fine record.

We would like to have the picture of the superintendent run in connection with the history of the school, and the picture of the teacher or president run in connection with the history of the class.

We cannot afford to pay for the making of a cut, and in case there are no cuts of teacher, president, or superintendent as desired, then we will run the history any way. But if there is a cut then we will be pleased to have the address of the person where the cut may be secured, and we will have it sent direct to the editor unless you are able to get the cut and send it to the editor, in which case let us know about it that we may properly notify the editor

and girls is well provided for in having a Tennis association to the boys and girls, a base ball team in the church league in the summer, and a basket ball team in the church league in winter.

"Co-operation" is the watchword in this school. No one says "No" if asked to do any particular part of the work, but always "I will try." The point of strength is a passion to serve in God's Kingdom.

Spencerville M. E. school has a banner class for the largest per cent of the enrollment on time. This report is made to the school by the secretary.

The Wonderful Self Feeding Soft Coal Stove 'THE RETORT OAK'

The Only Base Burner for Soft Coal Worthy the Name

Thousand of people, from their location, are forced to use soft coal, regardless of its disagreeable features in the way of dirt and soot, and to such people a stove that is cleanly, that does not puff gas or smoke in the room or do any of the disagreeable things that every other soft coal stove does will attract their attention and probably cause them to investigate its merits.

No stove can be cleanly that opens directly into the fire to feed it. No stove can be cleanly whose feed opening is larger than the pipe collar.

That this is true, take notice of the different devices used to prevent the smoke from coming out of the door every time it is opened to put fresh fuel on the fire.

The Retort Oak is the successor of the old "Retort," which was first put on the market in 1882, and was for many years practically the only magazine stove that would burn soft coal successfully, but here we were confronted with the difficulties that had proven unsurmountable, viz: the nature of the coal.

There is a right and a wrong way of doing everything, and the burning of soft coal is no exception.

Tersely stated, the right way is to make the coal into coke, then burn the coke.

There is but one way to make coke from coal, and that is by heating it.

The coal in the magazine becomes red hot, and to the ordinary observer appears to be on fire, but it is not, and cannot take fire until air is admitted to the inside of the magazine, although it will become red hot, but it should be no cause for anxiety to have the coal get in this condition, for when it becomes red hot in the magazine it is being freed from its gases, which are really the best part of the fuel, and where the gases can be utilized the amount of coal required to produce a given amount of heat is reduced by just the amount of heat produced by the combustion of the gases.

The Retort Oak is the only stove in the market today whose construction is such that the gases can be utilized for the production of heat; all other stoves permit a large percentage of gases to escape up the flue and are lost.

It is true that a magazine stove will not consume, on an average, more than one-half the fuel that any surface burner does, and at the same time it gives a steady, even fire without which there can be no real comfort. Colds caused by the great variation in temperature being the rule rather than the exception where surface burners are used, it being impossible to maintain an even temperature with any stove not a self-feeder.

A stove to be satisfactory should have power.

No small stove can be a powerful heater, because the surface is not there, and the power of any stove depends entirely upon the amount of its heating surface.

The rule in the larger stove the more economical it is in the use of fuel.

A small stove has to be forced, and a forced fire is always a wasteful fire.

You can have a small fire in a large stove, but you cannot have a large fire in a small stove.

The Week In Society

MARIE N. NAGLE

THERE is something in the autumn that is native to my blood—
Touch of manner, hint of mood;
And my heart is like a rhyme,
With the yellow and the purple and the crimson keeping time.
The scarlet of the maples can shake me like a cry
Of bugles going by.
And my lonely spirit thrills
To see the frosty stars like a smoke upon the hills.
There is something in October sets the gay blood astir,
We must rise and follow her,
When from every hill of flame
She calls and calls each vagabond by name.

—Dana Carman A Vagabond Song

After the program, all went to the basement where the ladies served refreshments.

The pastor and his wife were the recipients of bouquets of beautiful cut flowers, presented by the Juniors, and a box of fine table linen from the church membership.

The work of the conference year is starting well and this event but evidences the spirit of co-operation and affection between people and pastor.

One-piece frocks, coats and suits are shown in the new jersey fabric called La Jerz. It adapts itself beautifully and is most attractive when trimmed with fur. An exceedingly clever one-piece frock in dark brown jersey is illustrated. The box pleats drop from the shoulder to the hem, this proving extremely youthful and attractive. Beaver fur lends a charming finishing touch to the collar and cuffs. Smart button boots and a huge felt hat complete the outfit.

THE FAUROT'S PICTURES. Liant romance, which is pictured Every street in Lima points to the from the popular story of the same Faurot today, for Marguerite Clark, name by Harold McGrath. As the darling of all the photoplay fans, little peasant girl who is found to big, little, young and old, male or female, is playing a return date in that most delightful film romance, "The Goose Girl." Nothing the dainty Miss Clark has ever contributed to the screen is quite as fascinating both stage and screen, are in ev- ating and thoroughly artistic as her portrayal of the heroine in this bril-

lent her personal beauty. Her support is made up of some of the finest artists of the Lasky company, and the production is one of real beauty. "The Goose Girl" is accompanied by new Metro Travelogues and a "Mutt and Jeff" cartoon. "The Gay White Way." It might be well to note that those who arrive at the theatre at 9:25 this evening will be able to see "The Goose Girl" in its entirety.

Having danced their way to fame in European capitals and in South America, the internationally celebrated Maurice and Florence Walton are now making their motion picture debut in the Paramount photoplay, "The Quest of Life," which will be shown at the Faurot on Sunday and Monday. Maurice and Florence Walton have probably done more to bring the dance to its present high state of perfection and to spread its popularity than any other two people in the world. It was Maurice who introduced the Tango to Europe and America after he had studied it in South America. The celebrated Apache Dance, which is performed in "The Quest of Life," was also created by Maurice after he had seen the crude performance in the Apache dens of Paris. Having danced these and many other steps at the exclusive Biltmore hotel in New York and on the stages of the leading theatres in all the principal cities, this popular pair can truthfully be said to have spread the gospel of metric grace all over the country.

"The Quest of Life," however, is

not merely a dancing picture. It is a very dramatic story of a young girl of lowly parentage who is very ambitious for her future, an adaptation of the English play, "Ellen Young." The many theatrical and social scenes, however, give opportunity for the dancing stars to introduce many of their famous creations, as well as for the display of a bewildering number of gorgeous costumes. The cast includes Julian L'Estrange, Russell Bassett, Royal Byron, Mrs. Bechtel and others of the Famous Players forces and the production is in keeping with the high standard of this company. "The Quest of Life" will be accompanied by a new Bray-Paramount cartoon, "Farmer Al Falfa's Wolf Hound," and the latest edition of the Pathe News.

Theodore Roberts and Anita King, in the Lasky production of "Anton, the Terrible," will be the attraction at the Faurot on Tuesday and Wednesday. The Faurot's patrons will warmly welcome this picture, for no more popular player appears on the screen at this theatre than Theodore Roberts, who bears the supreme distinction of being America's greatest character actor. In his years on the stage and screen he has been seen in many notable roles, in all of which he has been ideal, but it is said that as the cruel head of the Russian secret police, "Anton, the Terrible," he excels anything he has done heretofore. The versatile and beautiful Anita King, the Paramount Girl, who recently scored such a success in "The Race," has a role that is exactly suited to her appealing personality. Mr. Lasky states that they have made a most excellent selection in co-starring these two artists. The photoplay was adapted by Jules Eckert Goodman, the noted playwright, from Thomas H. Uzell's story of the same name in the Saturday Evening Post. The scenes are laid in Petrograd and on the steppes of Siberia and bear the Lasky mark of perfection in settings and photography. The cast includes such prominent artists as H. B. Carpenter, Edythe Chapman, Harrison Ford and others of the Lasky company. This feature will be accompanied by new Burton Holmes Travels, "A Scotch-Irish Reel," a fresh edition of the Pathe News, and a new cartoon with "The Katzenjammer Kids" in diverting pranks.

Lionel Barrymore is the Metro star at the Faurot next week, an announcement that will bring satisfaction to many picture-goers. Mr. Barrymore will be seen in his new photoplay, "The Upheaval," a picture that will increase the prestige that this splendid actor has gained through his appearance on the Metro program. Most of the story is laid in the Adirondacks, and the producers have filled it with charming scenes and character types taken in this picturesque locality. It deals with the politics, gossip, intrigue and romance of a small town, with a love element that is at once novel and extremely interesting. Marguerite Skirvin, a beautiful and accomplished actress who can boast of many metropolitan successes on both stage and screen, will play the opposite role to Mr. Barrymore, and the cast also includes Edgar L. Javenport, Howard Truesdell, Paul Lawrence,

George Stevens and Myra Brook. "The Upheaval" will be accompanied by a comedy, "At a Premium," with Mr. and Mrs. Sidney Drew in another of their humorous domestic tangles, and new Paramount Pictographs, which contains fresh subjects that will interest, instruct and amuse.

The noted portrayer of Italian characters, George Beban, comes back to the Faurot next Saturday in a return booking of his extraordinary success, "Pasquale." The hundreds who saw this masterpiece of motion picture art when it was first shown at the Faurot will tell you that it is one of the greatest pictures of the year. Beban has done nothing finer than his acting of the title role in this production, which was written by himself and Lawrence McCloskey and staged at the studios of Oliver Morosco. The story is one of great human appeal, with much humor and several scenes that are thrilling in the extreme. Mr. Beban has the support of a real all-star cast. It includes beautiful Myrtle Steadman, Helen Eddy, Page Peters, Jack Nelson, Nigel de Brul- lard, and, last but not least, Pasquale's horse, "Colombo." The production is one of the most artistic and faithful ever turned out of the Morosco studio, which is famous for its elaborate settings and superb photography. "Pasquale" will have the accompaniment of Metro Travelogues and a new "Mutt and Jeff" cartoon comedy.

ORPHEUM. The coming week will witness some of the best vaudeville acts ever presented at the Orpheum theatre, Keith vaudeville at popular prices. One of the greatest singing acts ever introduced to vaudeville is that of the special feature which opens a three-days engagement Monday afternoon at 3 o'clock, the time of Monday's matinee will be changed to 3 o'clock, on account of the late arrival of some of the acts. Mrs. Otto Fiechtel's original Tyrolean Troubadors, one of the best singing organizations of its kind in vaudeville, will be the principal headliner. Another great feature for Lima is James Cullen, the monologist, direct from the Keltier Circuit and whose witlings will keep the Orpheum audiences roaring with laughter. Mr. Cullen has achieved a reputation of being one of the best comedians on the vaudeville stage, the patrons of the Orpheum being assured an act that will be the talk of the city. Harris

Sunday, tomorrow, afternoon and night, a wonderful motion picture feature "Saint, Devil and Woman" with the well-known screen star Florence Labadie in the leading role, supported by an excellent company of screen favorites. "Saint, Devil and Woman," is said to be along the lines made famous by the great plays "Dr. Jekyll and Mr. Hyde" and "Tribby," a beautiful girl struggles under the evil hypnotic influence of a wicked man. In "Saint, Devil and Woman" this

there is absorbed in a most interesting manner. The "Saint" fresh from the convent is gradually won to the hypnotic influence of a Spaniard, through whose evil power she becomes both "Devil" and "Woman." This picture will hold the attention from beginning to end. In addition to the picture, special vaudeville numbers will be offered between the reels. FURNITURE NEWS

There's a World of Difference Between the Two Words: Cheap and Inexpensive

We haven't a cheap piece of furniture in our stock; but we do have inexpensive ones. Cheap merchandise is shoddy and poorly-made; inexpensive merchandise is low in price but high in value for your money. Cheap furniture lasts a few years and falls to pieces; inexpensive furniture bought at GREGG'S will last a lifetime and give good, honest service that is worth something. Before you buy that rug or bed or table, let us know your needs and help you to choose substantial house-furnishings that are inexpensive, but not cheap.

Dining Room Furniture That Looks Well and Wears Well

Furniture that will add newness and cheer to your dining room—furniture that comes from factories where highest quality and thoroughness are demanded.

You may buy in a complete suite or in single pieces. Woods of walnut or oak—kiln-dried, heavy, select stock—and finished to bring out the elegant, natural grain of the wood.

*It's well worth your time to look them over and compare prices.

Leather Rockers That Cater to Your Comfort

Nothing but genuine leather upholstery used on these, thus assuring long service.

Mostly in solid oak—some with upholstered seats and backs; others upholstered all over—with big, comfortable coil spring seats.

A large selection—many styles—dependable quality and prices unusually low for the quality.

Rugs of Quality

The floor coverings for the new Barr Hotel were furnished by our Rug Department—a fact that speaks for the quality and fair prices of our rugs.

All the latest designs are here—Oriental patterns, allover patterns in every new color scheme of the season.

All sizes from small rugs for the hall and bed room, to the room-size ones. A good Brussels, 9 by 12 feet, can be bought for as low as \$15.

Come in and see them for yourself.

Lace Curtains

Many distinctive patterns in lace curtains have been received and placed on display.

Shown in nets, voiles, serims, marquisettes, etc. Some plain; others with lace edging, braid trimmings and allover patterns.

Note your needs while the selections are all new and the present prices prevail.

89c per pair and up to \$10.00.

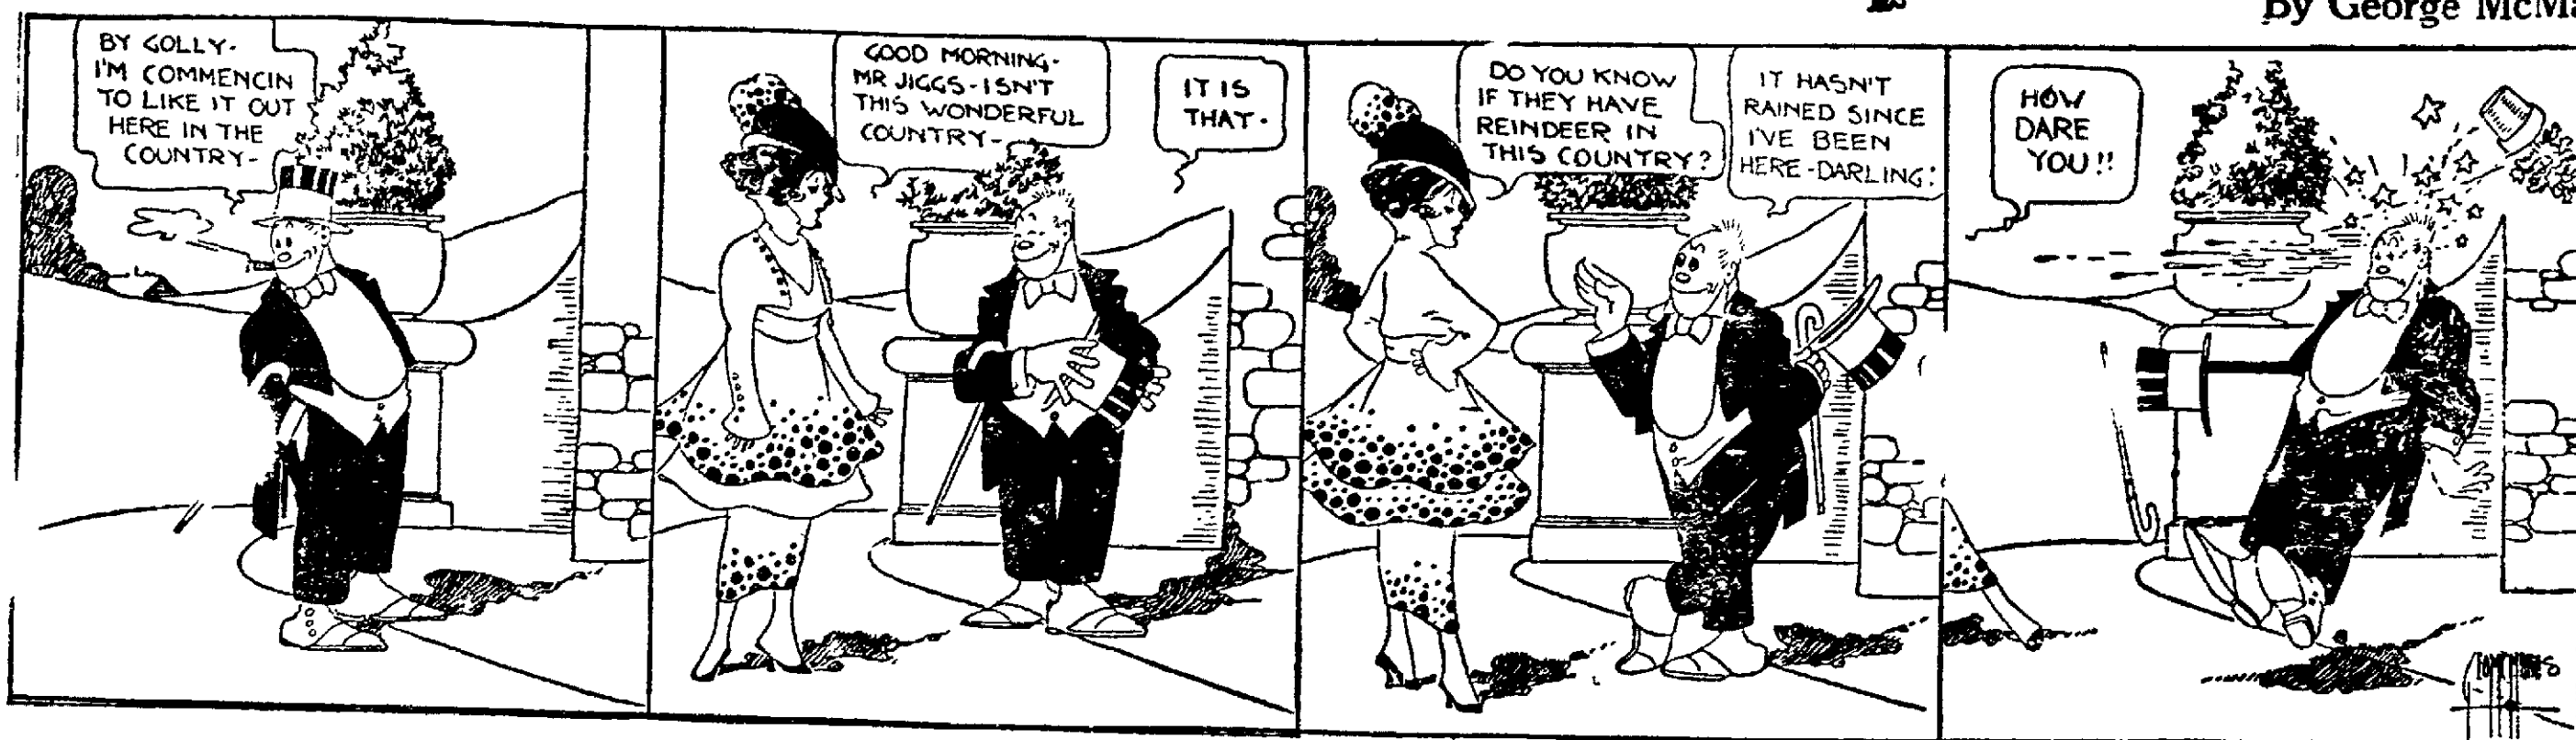

Tables for the Library

Winter is a season of long evenings—a time when good books stack the table of the reading room, and the library table is domestic headquarters.

Let us show you some very pretty styles in fumed and golden oak—as massive or as dainty as you like—all made and finished in the best of manner.

Our selections are well chosen; our prices begin at \$8.75.

Pittsburgh And Syracuse Game Very Important

BOTH ARE GOOD CLUBS
Championship Hope of Western Teams Will Probably Be Laid to Rest Today.

By Frank G. Menke.
NEW YORK, Oct. 21.—The Pittsburgh-Syracuse game today is the football contest in the east. It brings together two eleven teams that rank right now among the greatest in the country and the outcome of the battle may eliminate one from championship aspirations.

The way Syracuse has steam-rolled all opposition to date makes it an awesome outfit to behold. The Orange line this year, with its giant guards doing yeoman work, perhaps is the most powerful in America. White and Schlachter weigh an average of 250 pounds each and for men so heavy are amazingly fast. Flanking them are two of the huskiest tackles in captivity, while in the center of the line is a very burly guard. No team to date has made a dent in that stonewall defense and if Pittsburgh can do so it shall take a place among the truly great eleven in the 1916 football world.

The Pittsburgh team of a year ago tackled the toughest teams in the country and ended the season without suffering defeat. All signs pointed to a Pitt team stronger this year than that of last. But that game with navy last Saturday has altered the viewpoint of some folks. Pitt beat Navy 47 to 12 last year and was able to nose out only 20-19 victory in 1916. Does that mean a stronger navy team or a weaker Pitt outfit? The game today shall answer the story—and the eyes of the football world are focused upon it.

Three "Stellars" in West.
The matchmakers bring together in the west today six of the nine conference teams. And before the sun sets behind the hills, it is likely that the championship hopes of three more eleven will have laid to rest. Chicago meets Northwestern. It

ought to result in a victory for the Chicago eleven, although the Maroons are fighting now without the spirit of former years. What will it avail them if they jolt all their conference foes into oblivion? Won't the ghost of that 7 to 0 defeat they suffered at the hands of Carleton, the "dink college," rise up to haunt them?

Much speculation has been aroused over that Illinois-Ohio State game. It wouldn't be in any way surprising if Ohio State won—and in a decisive way. State this year has one of the best eleven that ever represented it. Illinois, judging from the Colgate game, isn't the same as it used to be. It showed a lack of ball advancing power and a line weakness last week that it is feared has not been remedied.

Iowa and Purdue also grapple in the preliminaries for the western title. It's a tossup between them, neither looks overly powerful, but both are about evenly matched. The deposters are picking Purdue to nose out a victory, but Iowa may spring one of its occasional surprises.

Other Easterners Unattractive.

Moving east again, one finds that none of the games outside the Pittsburgh struggle promises to be violent. Yale won't play, owing to the fact that it performed its weekly chore yesterday. Harvard ought to have an easy time with the Massachusetts Aggies, while Dartmouth shouldn't experience much trouble with Georgetown. Princeton tackled Lafayette today. The Pennsylvania college turns out some great teams occasionally, but this doesn't seem like one of its years. So Princeton should add to its scoring total, and at the same time, preserve its goal line from crossing by a foreign foe.

Lewis Loses.

SAVANNAH, Ga., Oct. 21.—(Strangler) Lewis failed to throw Billy Peters and Dr. B. F. Rolier each a fall in 75 minutes here last night in a handicap wrestling match. Peters was pinned to the mat in 20 minutes but Rolier baffled the Strangler.

SPORT NEWS

BY HAROLD GENSEL

Question Of Title Winner

NEW YORK, Oct. 21.—John Heydler, secretary of the National league, is in a quandary as to which batsman in his circuit should be given the 1916 crown. Should it be Holke of the Giants, who is the actual leader with .355 in 34 games; McCarty of the Giants, who hit for .343 in 30 games, or should the honor go to Chase, of the Reds, with an average of .335 in 142 games.

Usually the laurel is given to the swatman who has played in the most number of games. Therefore, that would make it Chase. But McCarty has figured in 84 innings, more than half the schedule, and that is about all that a catcher is supposed to work in a season.

"Public opinion gives the title to Chase," said Heydler today. "However, McCarty's showing must be given consideration. Any man who plays in 80 games should be reckoned a regular and especially if he is a catcher."

Sunday Ball Is Desired By Ebbets

NEW YORK, Oct. 21.—C. H. Ebbets, owner of the Dodgers, was hopeful today that Sunday baseball will be permitted in Brooklyn in 1917.

During the season just closed boxes were placed in the Dodgers park. All those in favor of Sunday baseball were asked to drop in a vote. Almost 100,000 fans are said to have favored Sunday games. Their votes were turned over to legislators and an effort will be made to put through a bill in Albany which would permit Sunday playing in Brooklyn, if not Greater New York. "Many assemblymen have told me they would support such a bill," said Ebbets.

Whatever use the war has done it has been the cause of a great improvement in the manufacture of artificial limbs. Here's a case in England. This

REAL PRO 'GOLF CHAMP.

JAMES BARNES

Meet Jim Barnes, all you golfers. He is a professional, but he knows golf. Yes, he plays for money prizes, and he is not ashamed of it. He is just like a base ball player—he doesn't play for mere fun. But he plays real golf. If you want to see real base ball you don't watch a college nuke; you go to Boston and see champions. Mr. Barnes is the winner of the professional tournament at the Sivanoy Country club at Mount Vernon, N. Y.

Of course, the national open golf championship won by "Chick" Evans, recently, goes as the greatest golfing event of the year. But many of those who saw Barnes win this event figure him as the real golf champion of the United States.

Eig Game On Coast

PORTLAND, Ore., Oct. 21.—Twenty-seven husky players and 100 rooters arrived here early today on a special train as representatives of Nebraska University, the foot ball team of which plays the region Aggies today.

Northwestern And Chicago Game Is Watched Closely

CHICAGO, Oct. 21.—The foot ball spotlight in the middle west today is divided between Chicago, where the University of Chicago faces Northwestern and Urbana tackles Ohio State which this year has an unusually strong team. Chicago should have a comparatively easy time while the Illinois probably will engage in a great battle. Outside of these two games there are none that will have much of a bearing on the conference championship.

Purdue and Iowa are in action against each other, but neither is given a look-in for the crown. Wisconsin and Minnesota should have easy picking with minor teams, the former meeting the Haskell Indians at Madison and the latter taking on South Dakota at Minneapolis.

BROWN'S LIGHT QUARTERBACK.

JIMMY MURPHY.

Brown University at Providence, R. I., has one of the lightest quarterbacks playing inter-collegiate football this year. He is Jimmy Murphy and he weighs less than 135 pounds. What he lacks in weight he makes up in speed and aggressiveness.

Murphy is one of the best all round athletes at Brown. He has starred in football, basketball and soccer. This is his third and last year on the eleven as he will be graduated in June.

Lima Boys Will Face St. Marys Squad on Sunday

GOOD GAME EXPECTED

Both Clubs Have Strengthened Their Line-Ups in Preparation For Their Contest.

According to recent indications one of the largest crowds of the season will be on hand tomorrow afternoon to witness the contest between St. Marys and the Independents. The game will be the third and deciding game of the series between these two clubs and should be hotly contested.

It was only after much persuasion that the business manager of the independent club was able to book the contest. Although they still had the third game of the series to play in order to settle the tie, they at first refused to complete the series, stating that there finances were increased in games played on their home grounds.

Information received from the side of the ledger.

LIST

Of Pertinent Question

WILL GIVE MUNICIPAL OWNERSHIP BACKERS A CHANCE TO EXPLAIN.

How often do you meet a voter who is in favor of municipal ownership of telephones for Lima?

When you meet one, do you find that he has any definite arguments or instances to cite in support of his belief?

Whether or not he has, can you tie him up with a few questions affecting the vital points of the project as proposed?

If you want to find out how much a municipal ownership advocate really knows about finance, taxation and telephones, try him out with a few of the following questions:

1. What is Lima to do for long-distance, suburban or rural service under the proposed system?
2. Where will the city find money to replace the loss of \$12,500 a year in taxes?
3. How can the city guarantee the bonds which fall under the limit of bonded indebtedness as long as the franchise secures only the excess?
4. What provisions are there in case no buyers care to risk money on the bonds?
5. Is the plant to be run under civil service or patronage?
6. What means has Lima to meet interest on bonds totaling nearly a million dollars?
7. Can the city condemn a plant until it can pay cash for it?
8. What assurance—that means figures—can the municipal ownership advocates offer that the city will not lose heavily by deterioration and mismanagement?
9. Is there any guarantee that the rates will not rise under city ownership?
10. Will the taxpayers be willing to hire the high priced experts needed in the mechanical departments, or will false economy hasten the deterioration of the plant, the service and the investment generally?

Here's Speedy Relief from Kidney Troubles

"Foley Kidney Pills have done me a heap of good." A. E. Burdick, Newark, N. J.

Some days it seems as if you can no longer bear the pain and misery you suffer from kidney and bladder trouble. The ache in your back grows worse with every move you make, and every step you take. It not only robs you of all your strength and energy, but it affects the other important organs of the body as well. Nervousness, headache, disordered stomach, liver trouble, bad eyesight, are only some of the conditions that follow kidney trouble.

Foley Kidney Pills help the sick weak kidneys to regain their normal health and activity. When they are again able to do their work effectively, your system is no longer choked and clogged with poisonous waste matter. Your symptoms clear up, your weakness, irritability, nervousness, etc., disappear. Foley Kidney Pills can do you a heap of good.

DUTY OF DEMOCRATS.

"What it is our imperative duty to do, my fellow-citizens, is to make everybody we know understand what the Democratic Party stands for and what it intends to do."—From Woodrow Wilson's speech at Shadow Lawn, Sept. 30, 1916.

"I want to give you a greeting and a message from the President of the United States. * * * He authorizes me to say for him that were he here he would express his special appreciation of the unswerving loyalty, the steady support and assistance he has received from Senator Pomerene."—Secretary of War Newton D. Baker, June 1, 1916.

WAR UNDER HUGHES OR PEACE UNDER WILSON?

(From President Woodrow Wilson's address to the Young Men's Democratic League, Sept. 30, 1916).

There is only one choice as against peace and that is war. Some of the supporters of that party (Republican), a very great body of the supporters of that party, openly declare that they want war, so that the certain prospect of the success of the Republican party is that we shall be drawn in one form or another into the embroilments of the European war, and that to the south of us the force of the United States will be used to produce in Mexico the kind of law and order which some American investors in Mexico consider most to their advantage.
